

# T.M. ROHAN

SENIOR PROGRAM / PROJECT MANAGER | TECHNOLOGY DELIVERY | TRANSFORMATION & GOVERNANCE

Bengaluru, India | rohan26t@gmail.com

## PROFESSIONAL SUMMARY

---

Program and project leader with 13+ years across enterprise technology, financial services, telecom and the Indian Army. Leads complex, multi-stakeholder initiatives from planning through UAT, go-live and operational handover, with strengths in governance, dependency and risk management, executive reporting, Agile delivery and process automation. Combines corporate delivery discipline with leadership experience in high-pressure environments.

## CORE COMPETENCIES

---

Program Management | Project Management | Technology Delivery | Cross-Functional Leadership | Stakeholder Management | Project Governance / PMO | Risk, Issue & Dependency Management | UAT & Go-Live | Vendor Management | Agile / Scrum | Resource & Capacity Planning | Process Improvement & Automation

## PROFESSIONAL EXPERIENCE

---

**VP, Operations Management** | The Data Duck, Bengaluru | *Mar 2026 - Present*

- Lead a 17-country technology integration portfolio, with 6 integrations and 17 services progressing concurrently across multiple markets; govern onboarding, UAT, operator approvals, dependencies and production readiness through launch.
- Coordinate a 7-member core engineering team plus product, QA/testing, telecom operators, content partners, security vendors and senior leadership, driving ownership and closure of cross-functional blockers.
- Established centralized governance across 17+ parallel workstreams, consolidating milestones, readiness, risks, owners and next actions into a single management view and replacing fragmented follow-up.
- Directed structured UAT across 35+ scenarios per cycle and standardized test evidence, defect summaries, escalation formats and sign-off criteria to strengthen launch quality and decision-making.

**AVP-2, Program Manager & Scrum Master** | State Street, Hyderabad & Bengaluru | *Apr 2023 - Mar 2026*

- Led delivery governance across 5 Scrum teams, standardizing Agile ceremonies, Jira workflows and executive dashboards; improved sprint commitment accuracy from ~60% to ~95% and on-time delivery from ~80% to 95%.
- Reduced average project timelines by 15% (20 to 17 weeks) through stronger prioritization, dependency management and cross-team synchronization; improved release success from 85% to 98% through pre-deployment controls.
- Automated reporting and approval workflows with Microsoft Power Automate, eliminating 18 manual steps per cycle and saving 120+ hours monthly while reducing team effort by 25%.
- Improved capacity planning by 20% across the delivery portfolio through roadmap alignment, workload forecasting and strategic resource rebalancing.

## MILITARY LEADERSHIP

---

**Commissioned Officer, 29 PARA (Special Forces)** | Indian Army | *Sep 2012 - Sep 2022*

- Led and mentored teams of 90+ personnel in high-pressure environments, accountable for planning, resource deployment, risk management, readiness and execution; managed defense projects valued at ~US\$1.2M with 96% schedule adherence.
- Coordinated 12+ joint initiatives with allied forces and law-enforcement agencies; awarded the GOC-in-C Commendation for leadership and execution.
